Art Unit: 1626

Receipt is acknowledged of the amendment filed August 17, 2007, which has been entered in the file.

The disclosure is objected to because of the following informalities: the specification does not contain a section entitled "Brief Description of the Drawings". To overcome this objection, this heading should be inserted on page 18, before line 1. See MPEP 608.01(f).

Appropriate correction is required.

Claims 1 and 20 are objected to because of the following informalities: in claim 1 on line 1, "with" should be changed to -of-. In claim 20, "and" should be inserted after " R_1 " and -or- should be inserted after "-OCF₃". Appropriate correction is required.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 to 37, 40 and 41 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, in the last structure listed for "A", the valence of the oxygen in the ring is incorrect. There are

Art Unit: 1626

normally only two bonds to oxygen. Should the ring containing the oxygen be charged or should the double bond to oxygen be a single bond?

There is no antecedent basis in claim 28 for "the specific TAFI inhibitor" that is recited in claim 35. To overcome this rejection, the dependency of claim 35 should be changed to 34.

Claim 34 is indefinite because it does not specify when the specific TAFI inhibitor is added when the sample is treated in the presence of a specific TAFI inhibitor. For example, is the specific TAFI inhibitor added before or after the activator buffer is added?

Applicant's arguments filed August 17, 2007 have been fully considered and are persuasive. The objections presented in the previous office action have been withdrawn.

No claim is allowed.
